

Capability Statement

More than solutions, we develop relationships.

WHO WE ARE

At Jenlyn Solutions (SB, SDB, WOSB), we combine strategy, technology, data, and digital expertise to drive meaningful change. Our team of dedicated IT professionals delivers innovative, effective, and tailored technology solutions that empower customers to achieve their unique goals. Founded on the principles of excellence, integrity, and customer-centricity, we've earned a reputation as a trusted partner in a rapidly evolving digital landscape. We take pride in our agility and commitment to quality, helping organizations stay ahead of change while ensuring exceptional customer satisfaction every step of the way.

CAPABILITIES

Backed by deep technical expertise and hands-on industry experience, our team crafts innovative, practical solutions that make a difference.

Strategy, Transformation & Delivery

We partner with customers to turn vision into action through strategic planning, program leadership, and disciplined execution—aligning goals, teams, and resources to deliver measurable outcomes that drive growth, efficiency, and lasting value.

Technology Innovation & Solutions

We enable digital evolution through creativity, strategy, and advanced technology. With expertise in automation, cloud modernization, and enterprise systems, we help organizations optimize operations, enhance experiences, and unlock new opportunities for growth.

Data Science & Analytics

We harness advanced analytics and modern data tools to uncover insights, predict trends, and power intelligent decisions—transforming data into actionable intelligence that fuels innovation, optimizes performance, and strengthens competitive advantage.

Digital Platforms, Integration & Security

We build secure, connected digital platforms that unify applications and data to drive agility and trust. Our integrated approach strengthens resilience, streamlines operations, and ensures scalable, protected digital experiences across the enterprise.

PAST PERFORMANCE

- ✓ Delivered high-impact technology and project management solutions to the federal government as a subcontractor under the LITES II, EAST 2, and NCAPS contracts, directly supporting mission-critical modernization and transformation initiatives.
- ✓ Architected and deployed a custom suite of Project Management tools for the NASA Engineering and Safety Center (NESC), transforming legacy workflows into a streamlined, scalable system that enhanced operational visibility and efficiency.
- ✓ Addressed complex system integration challenges by diagnosing root causes, deploying optimized updates, and implementing performance patches to ensure seamless data flow and interoperability.
- ✓ Provided strategic, multi-tiered support to NASA's Web Services Office, delivering customized workflow enhancements that strengthened team collaboration and optimized project execution across diverse environments.
- ✓ Collaborated with the European Space Agency (ESA) to identify root causes of user access failures and implement authentication fixes that restored secure, uninterrupted global operations.
- ✓ Ensured platform stability by managing patch deployments, resolving service tickets, and mitigating vulnerabilities to maintain peak system performance.
- ✓ Design the application from the ground up, consolidating three separate tools into a single, seamless tool. The integration streamlined workflows, improved data visibility, and reduced system complexity, allowing users to work more efficiently.
- ✓ Led the design and implementation of AI-driven analytics capabilities within an open-source simulation platform, enhancing data insight, modeling accuracy, and decision intelligence.

DIFFERENTIATORS

At Jenlyn Solutions, our greatest strength lies in our people and the values that guide us—professionalism, excellence, and collaboration. These principles shape every engagement and fuel our commitment to delivering meaningful, measurable outcomes for our clients. We take the time to understand each organization's unique goals and challenges, crafting tailored technology and management solutions that drive transformation and long-term success. Backed by deep industry experience, our team combines strategic insight, technical expertise, and disciplined execution to ensure accountability and quality in every deliverable. We remain agile and proactive, anticipating change and responding swiftly to evolving client needs while investing in mentorship and continuous learning to cultivate the next generation of technology leaders. Above all, we foster a culture of trust, innovation, and security, empowering our people to excel and our clients to operate with confidence in an ever-changing digital world.
